

Makiah

My neighbourhood

Last Friday after school at 5.00 pm, I went to this place called NCIE. It was for Halloween. When I went inside, I ran into the people that were doing the face paint. I was the only person that got my face painted as a vampire. The painter painted my face using black, white and red. He covered my face with white. And he used a thin paintbrush to paint my lips. He also used grey to make me look very dark. When the painter was doing my face, my friends came along and sprayed my hair with colour spray and then a boy came along and he also sprayed my hair. When I felt my hair, it was very hard. When I was done, I went to the game room to play basketball on the Xbox.

I am my room playing on my phone playing Candy Crush
I am art on a picture
I am my black and white jumper friend
I am the smell of new clothes opening
I am chicken soup in a pot
I am music on a phone
I am the rage at Jordan my enemy
I am sunlight from the sun
I am big and tall as a giant
I am family, flowers and dancing.
